

Black Box recommends Microsoft® Windows® XP

Diamond® a463 Desktop

The a463 incorporates the latest generation NVIDIA nForce4 Ultra chipset on an ATX platform supporting the latest peripheral technologies.

Integrated mainboard features include dual channel memory, 4 SATA ports supporting Raid 0, 1 configurations, Realtek AC97 7.1 audio, IEEE-1394 and GbT LAN.

One PCI Express x 16 Graphic card slot, two PCI Express x 1 and four PCI slots afford maximum expansion headroom.

Configured with the AMD® Athlon™ 64 or Athlon™ 64FX Processor the a463 delivers top-end power and performance for the most demanding 32-bit and 64-bit multimedia, 3D gaming, or graphic and video editing applications.

The a463 desktop system is designed with the true enthusiast in mind. For those seeking the latest generation technology and highest desktop performance, look no further than this system.
