

Black Box recommends Windows® XP Professional.

Diamond® i132s Desktop

Take all the features of the i132m and put it in a slim desktop case. That is the i132s.

The Intel® Desktop Board D101GGCL motherboard has integrated features include the ATI Radeon Xpress 200 Graphic Engine, Intel® High Definition Audio, and a 10/100 network connection.

Expansion slots support low profile PCI Express x16 graphic cards, two low profile PCI cards and one low profile PCI Express x1 card.

The i132s satisfies the performance requirements of most business applications with economy and reliability.

The i132s is a versatile desktop PC in a slim desktop case that's ideal for many education and business computing environments.
